

Note 1: These features to be removed from landfill area prior to completion of soil remedy.
The area to be capped (Alternative 3) or excavated (Alternative 4) was determined based on a risk-based concentration developed as discussed in Appendix B of this Feasibility Study Report.
Site Plan created from Arcadis CAD drawings received December 2015.

Legend

- Areas of Particular Concern (to be capped or excavated)
- Potential Source Area to be Removed
- ▨ Areas Determined to be Partially Non-Vegetated During Field Inspection
- ⚡ Access Control Fence
- Edge of landfilled wastes (dashed where approximate)
- ⋯ Great Swamp National Wildlife Refuge property boundary
- ▤ Area to be Capped (under Alternative 3) or Excavated (under Alternative 4)
- 🐸 Blue Spotted Salamander
- ▧ Potential Bog Turtle Habitat Area
- ▩ Potential Bog Turtle Habitat Area B
- ▨ Waste and debris observed on ground surface but not observed or anticipated below ground surface
- ▧ Wetland
- ▨ 150-foot Wetland Transition Area
- ▩ Open water

400 200 0 400 Feet
